## 1958 Michigan Week Set Ahead To May 4 to 10, It Is Announced

This Year Michigan is getting an early start with a special week May 4-10 to count its blessings. Previously, the promotion period came later in May.

state's 1958 Michigan Week.

Water and education will be the dual themes of the 1958 celebration and the theme, "It's Great to Live in Michigan," will be retained.

Dwight Stocker of Kalamazoo said the education side of the theme will be emphasized inside the state and the water attractions of Michigan will be stressed beyond its borders.

"Education appeals to everyone living in Michigan and water appeals to residents of other states where that resource is not so plentiful," he said.

Edward J. Hekman of Grand Rapids has been named general chairman of the 1958 event which will picture Michigan as a state of business and industry, a playground and "a good place to live."

Chicago is the "Villain" in a court drama with six states demanding that the city return the water it drains from Lake Michigan for sanitation purposes.

Involved are Michigan, Wisconsin, Minnesota, Ohio, Pennsylvania and New York — all protesting the loss of lake levels which threaten to damage hopes for the St. Lawrence Seaway.

Chicago started taking water out of Lake Michigan more than 50 years ago for two purposes. The city used 1,500 feet per second for the Chicago Sanitary and Ship Canal to make it navigable. That has been the restriction since 1930.

Unlimited pumpage also has been used to run through the city's sanitation system. After it is used, the water goes into the Mississippi river through the canal.

Atty. Gen. Thomas M. Kavanagh said the loss of the water to Chicago is a major concern.

The value of resort property in bordering states, and hurt the development of electric power.

In addition, the states are asking that other cities bordering the Great Lakes, including Milwaukee and Toronto, be required to return the water they use for sanitation.

Justices of Michigan's Supreme Court are taking long strides in exercising their discretionary control over lower courts.

The have scheduled a series of meetings with the judges of circuit courts to provide closer coordination of the state's judicial system.

The first meeting, at Saginaw, brought a blast from Justice Eugene F. Black, who charged that the Wayne County judges are asking excessive vacations and allowing their cases to backlog.

It started a furor, with judges denying their schedules of vacations are reducing the effectiveness of the bench.

The second meeting, with Upper Peninsula judges at Marquette brought only a criticism of the state parole board whose policies, it was charged, keep state prisoners overcrowded.

Observers stated that the Marquette meeting was less spectacular because Justice John Voelker, who presided, held a closed meeting with the jurists before letting the public hear.

He defended the move as "the right of judges to get together."

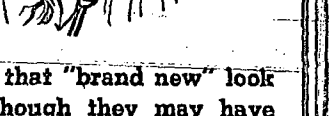

Educators at the University of Michigan are ready to accept the challenge of Russian scientific advances with a special institute to carry the fight into the public school system.

The proposal, by a science advisory committee to Dr. Harlan Hatcher, of the U-M, was accepted by the Board of Regents.

The 1958 legislature will be asked for \$2,870,000 as the first-year budget for the institute.

Dr. Hatcher said the institute would combine the talents of scientists in varied fields to concentrate their knowledge and training on education of youngsters in science.

## SEN. POTTER REPORTS . . .

From Washington

WHAT KEEPS Washington's wheels whirling? Women; to a large extent.

In this town, where politics and government are major preoccupations, the girls are moving front and center. It seems to me that the Christmas season is the time to be big about it. Let's acknowledge what the lovely creatures have achieved in what is generally described as a man's world.

Here in the Capitol, gifted women in law, diplomacy, journalism, and science are holding men's jobs with distinction, often serving simultaneously as true wives and mothers. These, of course, are the five-star generals. The baronesses are named by thousands of "government girls," on whom too high a value cannot be placed, who come here from every State in the union to fill key secretarial and administrative spots. From the White House to the embassies, from the press galleries to the military bases, the girls are in there pitching at every level of responsibility.

This thumbnail list does not pretend to include all of the bright stars in Washington's female firmament, but is enough to convey an idea of the gratitude the nation owes its women. A score of personal pride to me are the Michigan names sprinkled through

## WHILE CAR PRICES WENT UP THROUGHOUT THE INDUSTRY, THE PRICE OF THIS CAR WENT DOWN

Here's good news: Ford has priced many of its '58 models lower than corresponding 1957 models! Ford Custom 300's are priced as much as \$50 lower than last year. This is based on a comparison of manufacturers' suggested retail delivered prices.

Who'd ever guess  
it's the lowest priced  
of the low-price three

In case you haven't yet gotten around to pricing this elegantly styled '58 Ford Custom 300, put your mind at ease. When you compare manufacturers' suggested retail delivered prices, you'll find that this Ford is priced lower than any sedan in its field. And Ford has the lowest priced station wagon and convertible, too!

But price isn't everything. The '58 Ford was the first car ever to use the whole world as its test track! This meant taking the all-new Interceptor V-8, combining it with new Cruise-O-Matic Drive, and tackling some of the roughest roads we could find on three continents. This terrific power team proved it could handle any driving you'll ever do!

### 'Inside Moscow'

Many people believe that Soviet communism will start to collapse when and if the Russian people are able to learn what actually goes on inside of the Iron Curtain, and how other peoples live and work and play. This is essentially the idea behind the voice of America broadcasts and other such efforts. Credence is lent to it by the undeniable fact that the Russian government goes to extraordinary lengths to keep the doors shut against the western world—and to keep their own masses in virtually total ignorance of conditions elsewhere.

Now an interesting sidelight on this is provided by John Gunther, in an article appearing in the December issue of The Reader's Digest. The article is called "Inside Moscow" and is a part of a forthcoming book, "Inside Russia Today." Moscow is a great capital of some 7 million population. Yet, Mr. Gunther writes: "No citizen has ever read a gossip column or played canasta. No one has ever seen a supermarket, a drive-in movie, a motel or a golf course. Nobody has ever shopped by mail or paid a bill by check. No one has ever seen an electric toaster, a sidewalk cafe, a shoeshine stand or a funeral home."

In other words, the life of most Russian citizens "is inexpressibly dreary." The regime sees to that, as a matter of high policy. Yet, Mr. Gunther found, "the Russians are a terrific, tremendous, a magnificent people." They have many characteristics in common with Americans—humor, gregariousness, curiosity, an aptitude for technical skills. During his whole trip he "never saw an unfriendly face."

He also reports that the people grumble openly—that is allowed, so long as it doesn't extend to political matters. They grumble about the terrific shortage of housing—often young people can't marry for want of a place to live. They grumble about the poor quality of consumer goods, of building construction and maintenance, and of all manner of other things. The streets are always crowded in Moscow even on bitter winter nights, because "homes are so unbelievably crowded, squalid and uncomfortable."

It is symbolic of life in Russia that when the famous Bolshoi Ballet went to London last year, its members wanted to buy two things above all—knitting needles and porcelain for false teeth. Neither were available at home. Stainless steel is used for teeth.

In conclusion, Mr. Gunther says this: "This is a country where nobody puts his neck out, run by a

regime without a heart. . . . Dressed in their drabness, huddled in their tenements and filled with boredom, the Russian people must be kept from knowing what goes on in the outer world. If they ever found out, it would be the beginning of the end of a regime that has forced them to suffer in silence for 40 interminable years."

### Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

January 17, 1935

Boyer City has had one of the outstanding high school basketball teams in northern Michigan. For two successive years they have won the District tournament, gone through the Petoskey Regional, and journeyed to the State Tournament. Year before last they won their way to the finals and finished the season as the second best Class C team in the state. That year they lost but two games, the final game of the season to St. Mary's of Orchard Lake for the state title, and the other right here in Grayling when the fans were treated to a real thriller, as the Green and White fought the ball game. They still remember that in Boyer City, and it was therefore with real joy that Boyer fans saw Grayling's victory string of six straight break off as the Red and Black arose to the situation and edged out a 22 to 19 win in another thrilling encounter which was in doubt clear through to the wild and woolly finish.

Grayling Winter Sports committees have been holding regular meetings so that now the various activities are planned and preparations nearly complete for their fulfillment. The ground committee, following expert advice, has made changes in the ski jump, making it now not of the best jumps in the state, and with the snow which we have had the slides are expected to be in perfect condition for the carnival. The weather, which two weeks ago suddenly changed and forced abandonment of sliding, last week end made up for its previous bad behavior.

At noon Tuesday a deal was consummated in which Walter Cowell dimly, of his eating place known as Paddy's Grill to Herbert Walther and his nephew, George Stanley of Higgins Lake. Hereafter the place will be known as the Plaza Grill and the proprietors expect to make several other changes. Mr. Cowell found it necessary to give up the restaurant business owing to ill health, as it was too confining. He says plans as to what he will do in the future.

Grayling High School's basketball tossers bounced back into their winning ways last Friday night, when they very decisively subdued West Branch 23 to 7 before a capacity crowd of Branch fans who were in a mood to be enthusiastic and found little to cheer them. Grayling's reserves coped off an 18 decision.

Billy Har of Mackinaw visited

Mrs. August Engel and daughters, Mrs. Ted Stephan and Miss Matilda Engel returned the last of the week from Detroit after a ten-day visit with another daughter, Mrs. William Miller.

After their regular meeting at their lodge rooms last Wednesday evening, the members of the O. E. S. pleasantly surprised Mrs. Charles Fehr in honor of her birthday. A delicious lunch was served and a very enjoyable social evening was spent.

Dr. C. L. Anderson of West Branch, a professionally ski jumper, will take part in the ski jumping exhibitions during the carnival. Later he will attend the national meeting at Chicago as a representative of Grayling Winter Sports Association, Inc.

Roy Milnes has been elected to fill the vacancy on the school board incurred by the death of Secretary M. A. Bates. Roy is a fine, clean and able young man and we don't know how the board could have picked a better man to fill the vacancy.

Mrs. Ernest Borchers was hostess to her bride club Wednesday evening, Mrs. Harold Rasmussen, holding the high score. A bowl of sweet peas centered the lunch table. Mrs. Amos Hunter and Mrs. George Granger were guests of the club.

Mr. and Mrs. A. J. Trudeau returned from their Arbor Friday, leaving their son, Junior, at University Hospital. Mrs. Trudeau's mother, Mrs. James Wingard, who is making her home for the present with her son, William, and family, accompanied them home for a visit here.

### "NO EYES IN HIS HEAD"

This Friday is the birthday of a famous American . . . Ben Franklin.

Ben is usually pictured as a down-to-earth sort of guy. Printer, writer, publisher, diplomat all rolled into one. A human dynamo with a ready wit.

Ben Franklin never retired. He started working at the age of ten and was working for abolition of slavery at the time of his death . . . 84 years old. He invented the Franklin Stove and the lightning rod and his accomplishments as a diplomat are many . . . truly a great American. Our title, "No Eyes in His Head" was a sneaky way of telling you about Idaho Potato and Onion week . . . Jan. 18th to the 25th. Take a tip girls . . . most husbands love baked Idaho potatoes . . . saves peeling time too! These cold nights are ideal for oven dinners. Serve 'em with sauerkraut and weenies, baked pork chops, or meat loaf. Include white sauce-gravy with lots of eggs.

Breathing—the word about "Onion Week" gets me—it's really true . . . an onion sandwich and a glass of milk will induce sleep. That's fine for the eater, but pity the normal person who doesn't need the onion sandwich! Have you any unbroken New Year's Resolutions? Make some new ones and visit our store for food values. . . . We'll look for you.

Ever heard about "Tubers in Technicolor"? That's next week!

Every window of every Buick is SAFETY GLASS

22 emergency stops from 60 mph—and Buick's brakes still effective!

As a result of this grueling brake test, SCI stated: "We find it the rule for Detroit sedans to brake quite efficiently for the first few stops, but then they deteriorate rapidly." But here's what happened in the Buick Century 22 "crash stops" were made from 60 MPH, and afterwards, the brakes were still fully effective. Says SCI, "This was by far the most severe test we ever have submitted a sedan's brakes to, but after it was over the Buick's brakes functioned perfectly . . . Buick has done it, has achieved a much better product, and has set a new standard of brake quality for Detroit."

**PAT BOONE**, one of the coun-  
try's highest paid singing stars,  
works his way through Columbia  
University in off-television hours  
... hopes to land a BS degree and  
a Phi Beta Kappa key by the end  
of the spring term. Born

Charles Eugene Boone on June 1,  
1934, in Jackson, Miss., he was  
nicknamed "Pat" by his parents  
who had anticipated a daughter  
whom they would have named Pa-  
tricia. His father, Archie Boone,  
a descendant of Daniel Boone,  
moved the family to Nashville,  
Tenn., when the song star was  
two.

Pat began singing in public when  
he was 10 in a talent contest. He  
has never had a lesson ... can  
just about read music. At 17  
he was singing on a radio pro-  
gram in Nashville. ... Shortly  
after, in 1953, he won a trip to New  
York and an audition on Ted  
Mack's TV talent show ... sub-  
sequently became a three-time  
winner. ... The young singer is  
married to Shirley Foley, daugh-  
ter of ABC-TV star Red Foley.

They met and fell in love during  
their freshman year at David Lips-  
comb high school in Nashville. ...  
were married in the fall of 1953  
during their sophomore year at  
college.

Seeking a life of their own, the  
young couple moved to Danton,  
Tex., in 1954, where Pat worked  
his way through North Texas State  
Teacher's college for the sum of  
\$50 per week, total earnings from  
three weekly TV shows on a local  
St. Louis station. ... About that  
time he won top honors on the

### 1957 Christmas Seal Drive In County Higher

Contributions to the Christmas Seal drive from Grayling County residents are about last year's total, the Michigan Tuberculosis Association says today.

J. Irvin Nichols, executive secretary of the voluntary TB association reported that Grayling County residents have contributed \$3,384.14 compared to \$3,433.00 in 1956. Nichols said that there were many new contributors from the County but added that some of the regular supporters of the TB fund had not yet been heard from.

"Each January we find that some regular contributors have not sent their checks," Nichols said. "We are sure that the town in November, when the pre-Christmas drive is on, is never too late to send your contribution to the TB fund," Nichols said.

In the 62 counties where the state TB association conducts the Christmas Seal drive, the total of last year's total of \$1,424,000 has been raised.

Nichols cited the fact that has been made known that TB can be reversed if caught early and the disease was not advanced.

"Ten new cases of tuberculosis every day in Michigan," he said, "that this great disease is a communicable disease which can be reversed if caught early and the disease was not advanced."

The TB association has been given in Detroit by the state now, will work with the state in the fight against tuberculosis. County residents who have contributed. He said that the "wonderful" letters he has received by the MTA are not be answered. Nichols said he wanted everyone to know they are sincerely appreciated.
